To : The Department of Justice  
From: The Public Consumer

Sir:

Please put an end on this case against Microsoft, give Microsoft freedom to serve the consumers. For my point of view, Microsoft had not done anything wrong except protecting there product, making sure that the consumers will have an easy understanding and access on variety of new technology.

Please be on the side of the consumers and not with the competitors.

Thank you and God Bless you.

Sincerely,

Catalina Moore  
Consumer
